Disconnection for Non-Payment

The Coronavirus is affecting our entire community. Many have lost their employment and are having troubles paying their bills. Peoples Water Service has temporarily suspended its disconnection for non-payment procedures. While this means customers will not be disconnected for non-payment at this time, the water meters will continue to be read and billed.

Peoples Water Service requests all customers remain current on their water bills each month so their account does not accumulate to a large amount. This will help your budgeting, and allow Peoples Water Service to meet its obligations and continue to provide quality water service, which is critical to fighting the virus through hand washing and addressing health needs.
